

Navigator Technology Solution

RSE : LE7-4000/LE7-5000

Product introduction

Built-in fan heat sink, extend motor continuous working time.

Gears with end cap protection, more beautiful and safe.

Turbine, worm drive structure, with self-locking function, smooth transmission.

Install easily, gate can be opened and closed manually after release the clutch in the case of a power failure.

Standard with soft-start and soft-stop, resistance rebound, automatic closing, one-button reversing and other functions.

Multiple interlaces (UPS, infrared, alarm lamp, bluetooth, mobile phone visual system, external buttons etc.)

TECHNICAL DATA

Item No.	LE7-4000	LE7-5000
Power supply	AC220V/50Hz	AC220V/50Hz
Output torque	150N.m	160N.m
Max gate weight	3000Kg-4000Kg	4000Kg-5000Kg
Motor speed	1400r/min	1400r/min
Gate speed	12m/min	12m/min
Limit switch	Spring(N.C/N.O)	Spring(N.C/N.O)
Noise	≤56 dB	≤56 dB
Temperature	-20°C to +60°C	-20°C to +60°C
Protection class	IP44	IP44
